

INTRODUCTION TO GRAPHICS

Adding Artwork to a Masked Object in Illustrator

PROJECT No.

Step 1.

Create the masked object using art or a personal photo file or illustration of your choosing as the subject.

Step 3.

With the Direct Selection Tool highlighted, select the masked picture. In this case it would be your photograph or illustration.

Select Paste In Front.

You should have a combination illustration like the one below except with your personal art, photograph and/or artwork

Step 2.

Make or select a piece of artwork and drag the artwork on top of the masked object. With the design selected choose Edit>Cut. The design will disappear temporarily.
