

# INTRODUCTION TO GRAPHICS

## Seal of Satisfaction

Information Sheet No. PS952

1. Start out with this image. You can either use the copy here or search Google Images for "guarantee"

2. Using the elliptical marquee tool, hold down the shift key to create a circle that almost touches the border. Fill it in with white. Then go to Select > Modify > Contract. Use 2 pixels. Fill in the rest with the color you desire.

3. Without deselecting, go back to Select > Modify > Contract except this time use 15 pixels. Fill in the selection on a new layer. Use your color of your choice.

4. Now right click on the selection you have made and click on "make work path." This example uses 2.0 pixels.

5. Select the text tool and click somewhere very close to the work path you have just created. The text should attach to the path. Start typing and the text should rotate around the path you have. If you need to center the text on the circle, you can use the transform tool to rotate the work path.

6. Use the rectangular marquee tool and make a selection that is one pixel in height and however wide you want.

7. Add the 100% text. This font is Helvetica Neue, but you may use any font of your choice.

8. Then add the "or your money back" text and use the "create warped text." Once there, you can play around with the different methods of warping your text. This text is a simple arch. And there you have your final image.

Now, make another similar logo, except change it to an uptime guarantee as shown below.
