

INTRODUCTION TO GRAPHICS

DRAW A FIGHTING BULL

ADVANCED
PROJECT No.

PS991

Adobe Photoshop is a multipurpose software, which is leading the graphical and designing industry as the software incorporates thousands of effects, has range of functions and software features and can be use to create razor-sharp images and eye-catching graphical illustrations. Further more Photoshop is designed to be very user friendly.

Beginners will not find the software too hard and complex to master while professional graphic or web designer readily make use of Photoshop for proficient designing and illustrations.

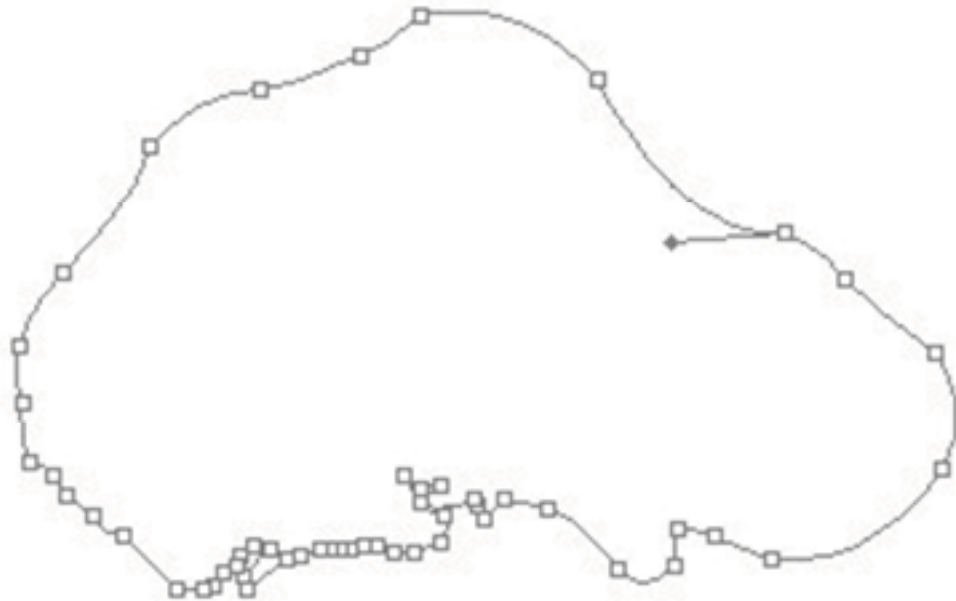

In this exercise you wil create a Art logo with a Bull design, with the help of photoshop Tools like Pen Tool, Burn Tool, Brush Tool, Smudge Tool, and Horizontal Type Tool.

1. To begin, open a new document using file, New option. Keep the Height= 350 pixels

and width=221pixels. Now select Pen Tool  from the toolbar and create a shape same as you can see in the Image on the next page. The toolbar is usually on your left but you can also display it using window > tools from the top menu if it is not visible.

Once you make the shape click on the arrow icon in the toolbar, which is called path selection tool and looks like an arrow in the toolbar.

Now Right click on the shape > Make Selection > click ok at 0.2 Pixel. Once the selection is made you will see dotted lines around your shape.

Make Selection

Rendering

Feather Radius: pixels

Anti-aliased

Operation

New Selection

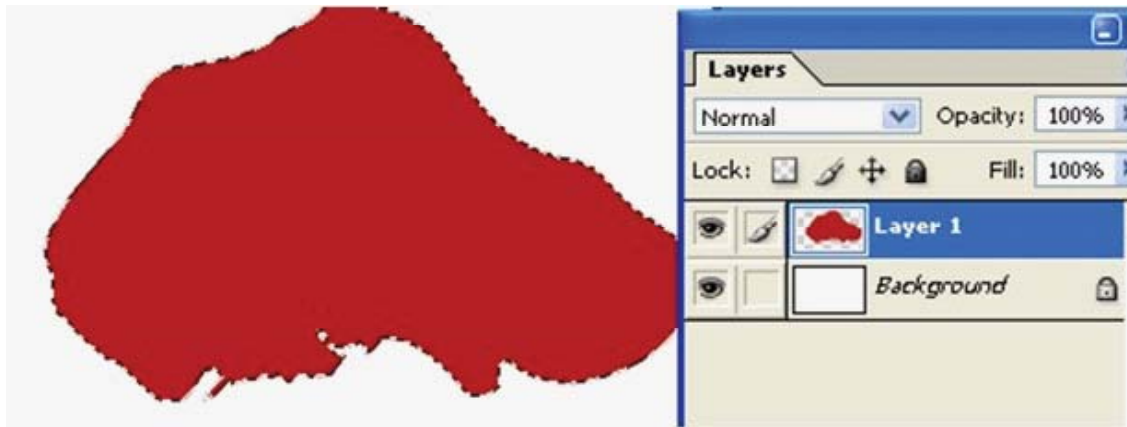

Add to Selection

Subtract from Selection

Intersect with Selection

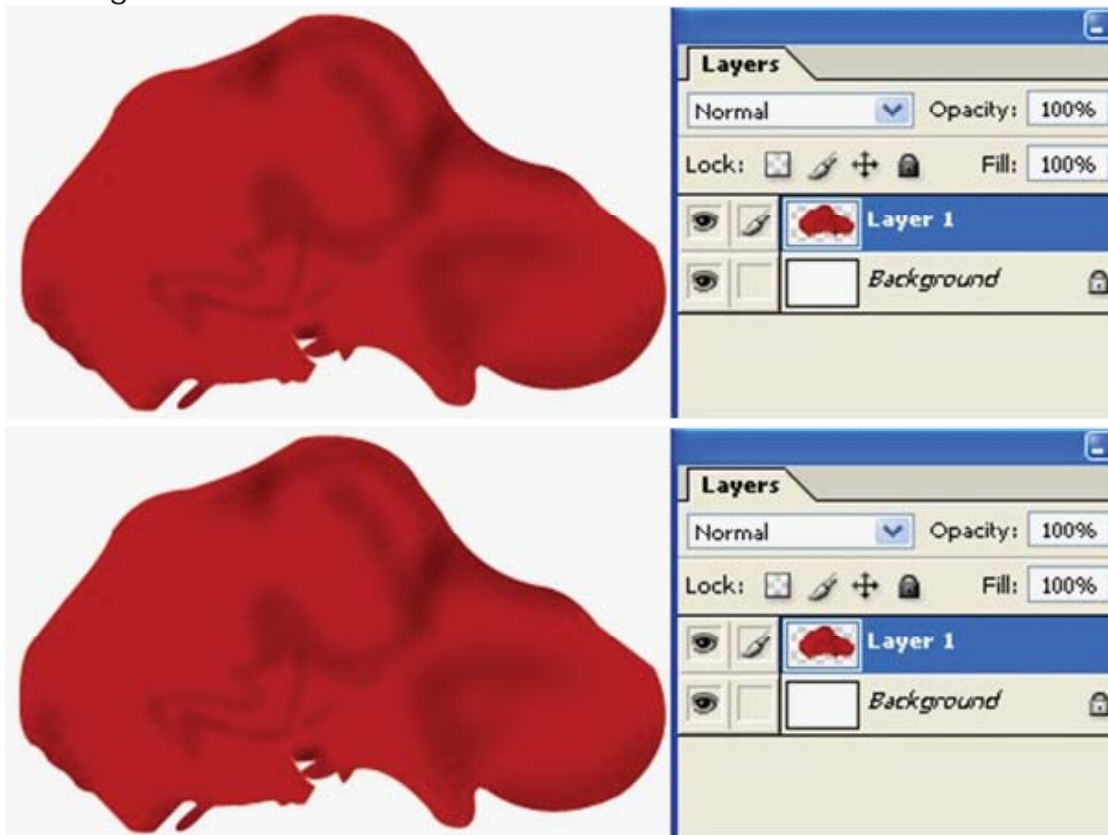

Now fill this selection with the color code #B60E01.

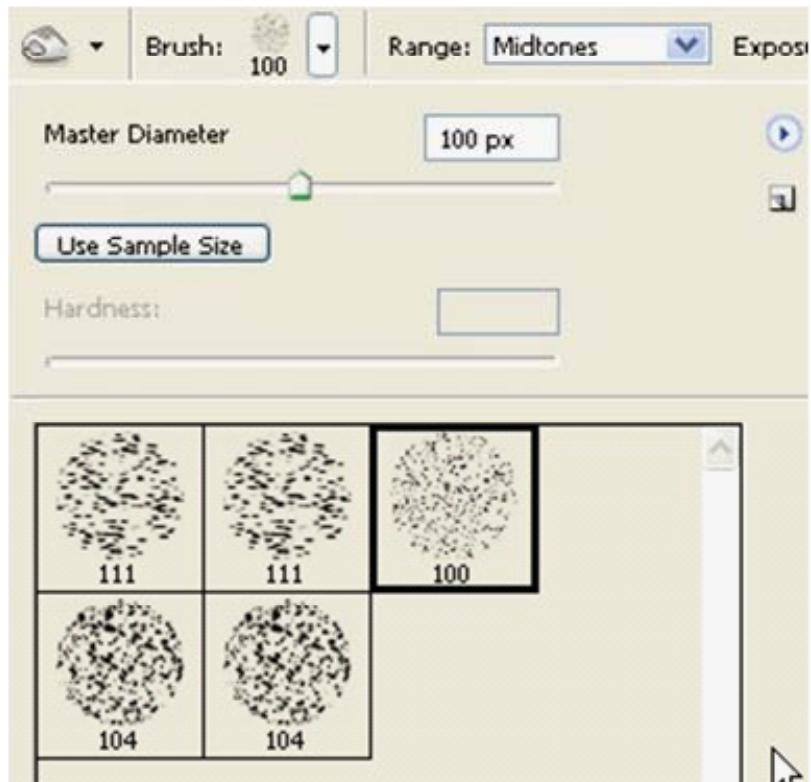

2. Now select the Burn Tool  and give burn Effect to the shape . . .

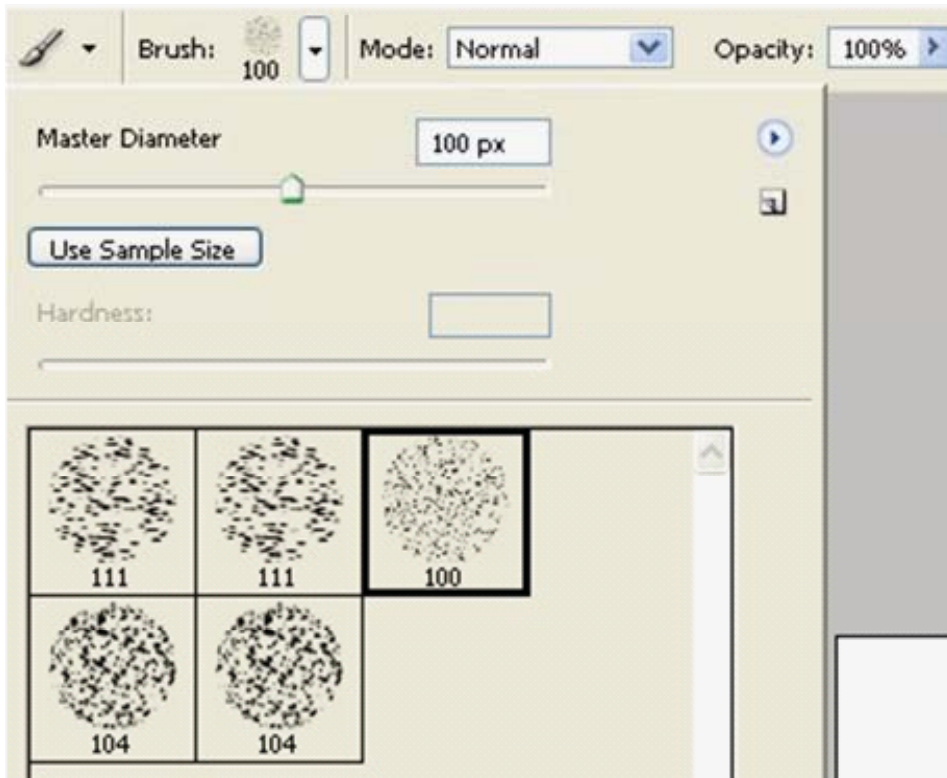

you can increase or decrease the size of the Brush to give Effects; for that you have to know what you are drawing. This is a shape of a charging bull so you will have to use burn tool near legs and on the back as shown below.

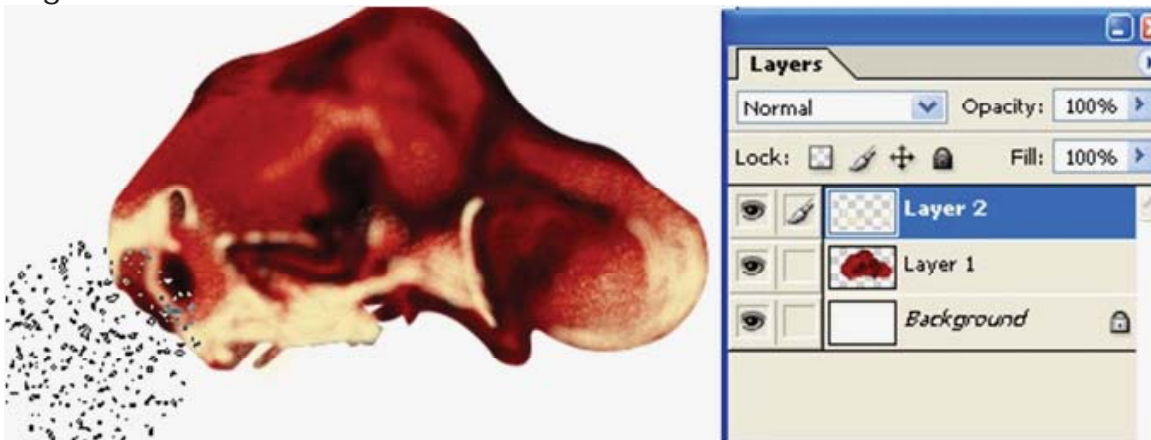

Now then take the Burn Tool , select the Brush size 100 and brush Exposure-50%, now use the Burn Tool to give more Effects to the Bull image. You can increase or decrease the size of brush to get the desired Effect.

3. Select Brush Tool  , and select the 100 number Brush; use it to give additional effect to the Image. You can Increase or decrease the size of brush to get the desired Effect.

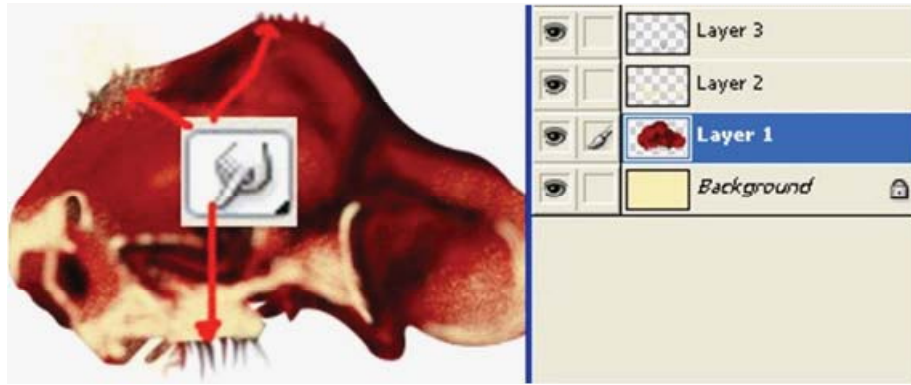

Make a New Layer, and with the Brush Tool and Brush color #F5EAB2, add additional effects to the Image so it will more look like a bull. You can increase or decrease the size of brush to get the desired effect.

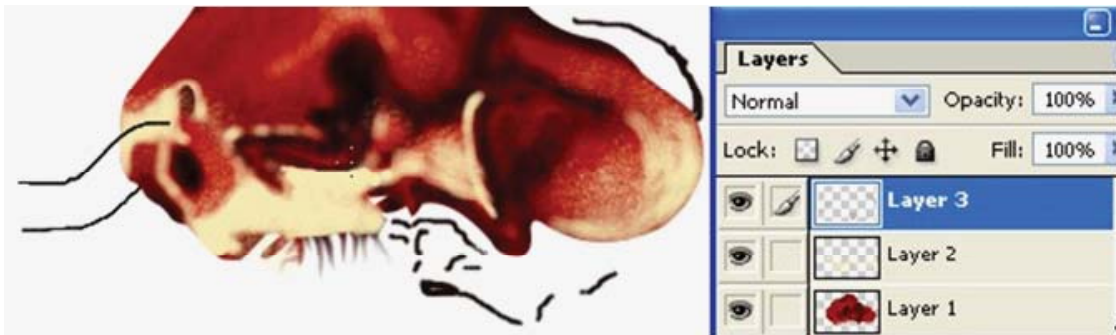

4. Now select Smudge Tool, and then select Layer1, and work with the Smudge Tool as you can see in the image on the next page.

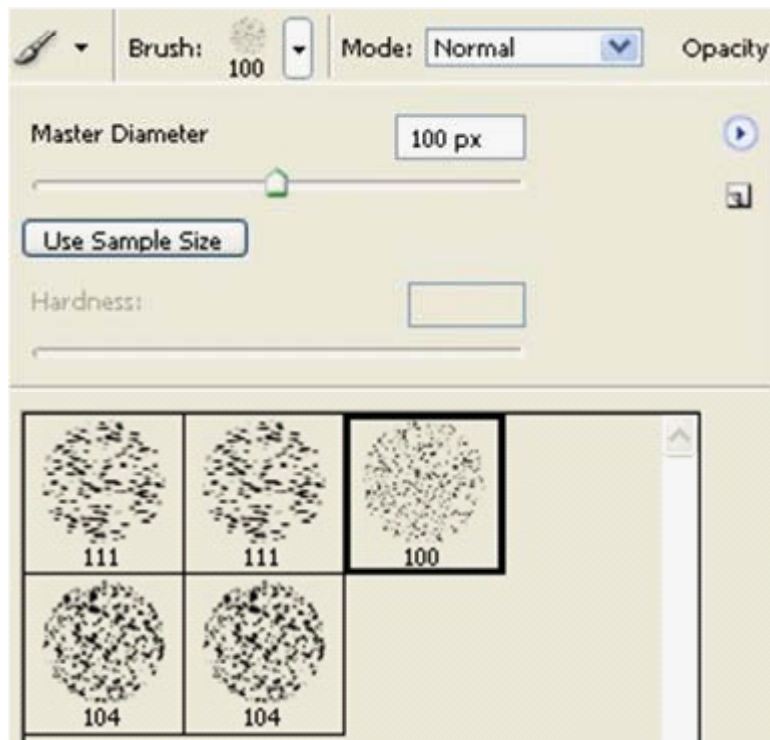

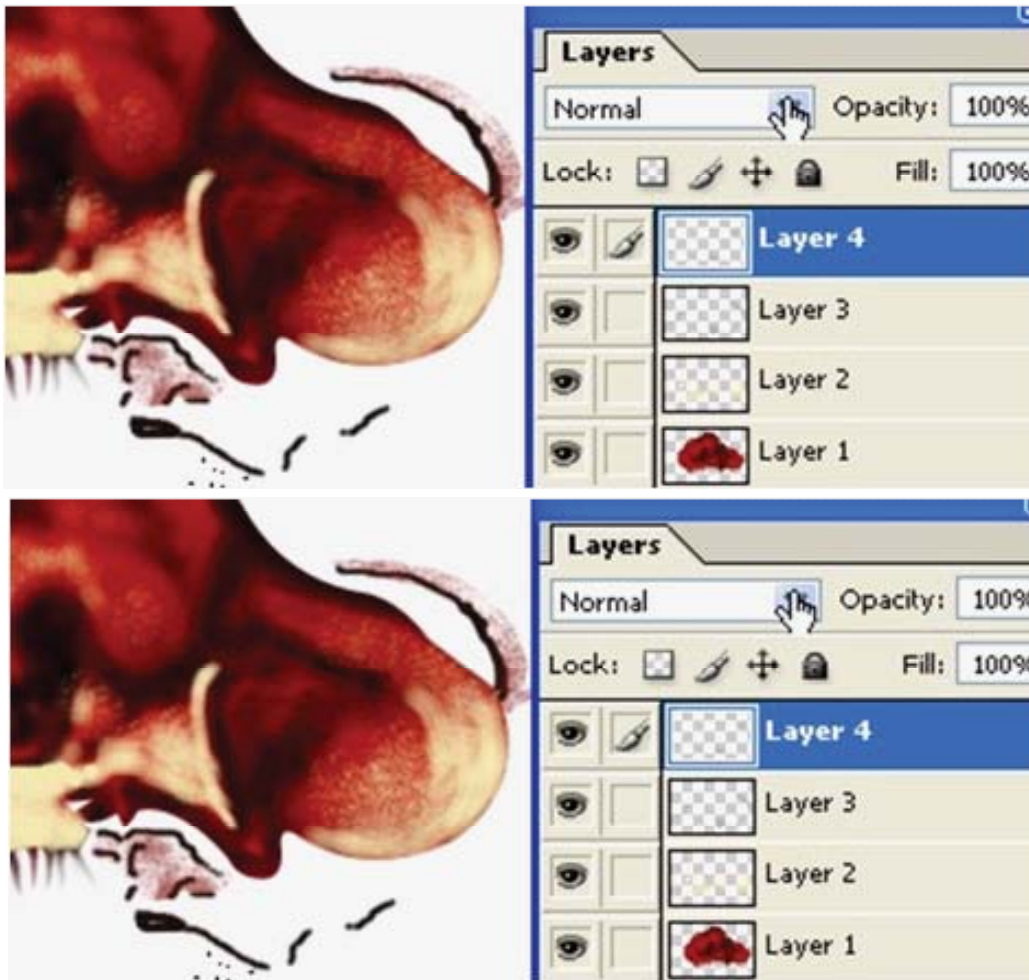

5. Now again select Brush Tool, make a new Layer, set the Brush color to #1B0E06 and add more stroke effects.

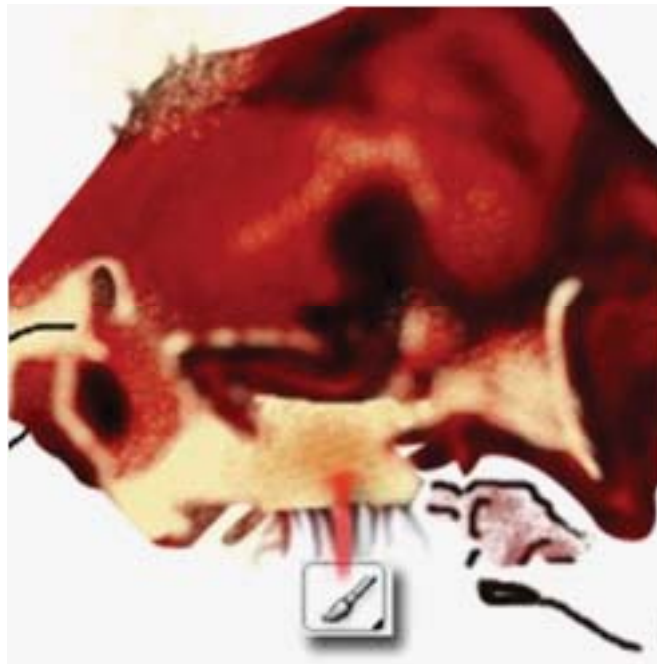

Now change the Brush, and select Brush #100 and Brush opacity= 100pixel.

Now again make a new Layer, and then with the Brush Tool and Brush color #C99995 add more effects as shown below.

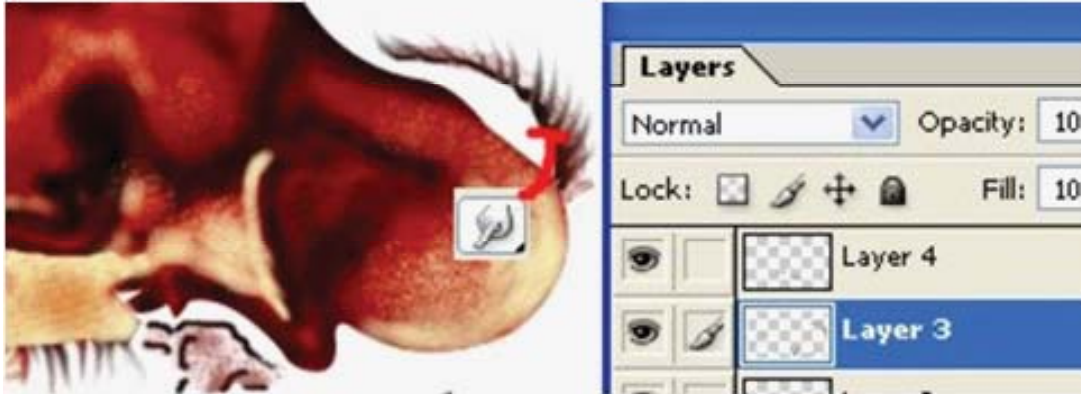

Change Brush color to work with the Brush color # E79657, and add even more effects.

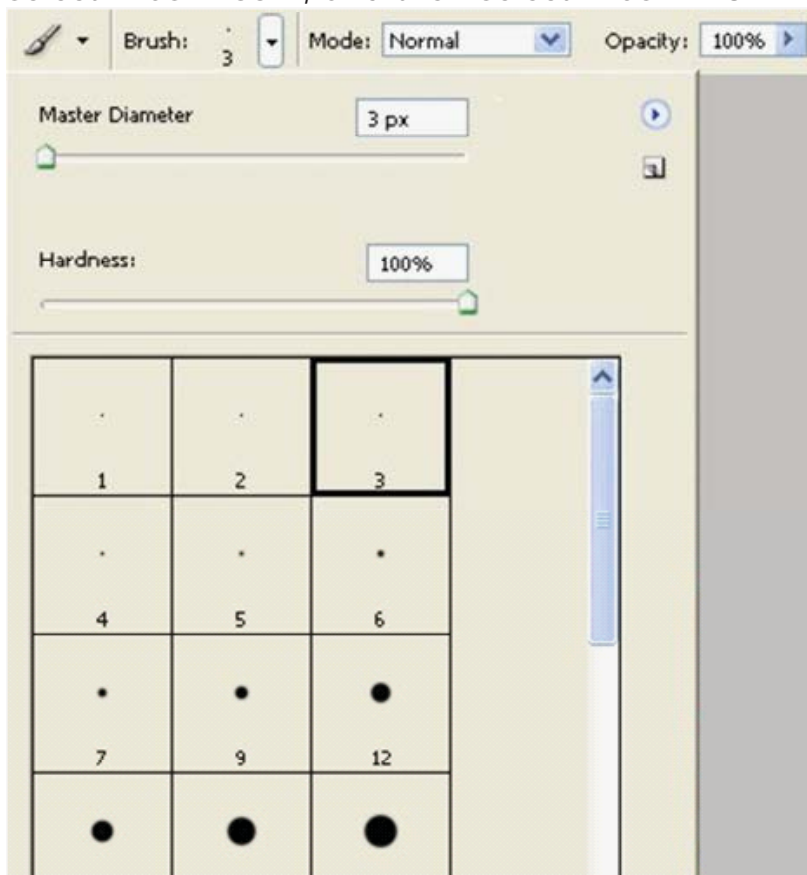

6. Now select Smudge Tool:

to add even more Effects.

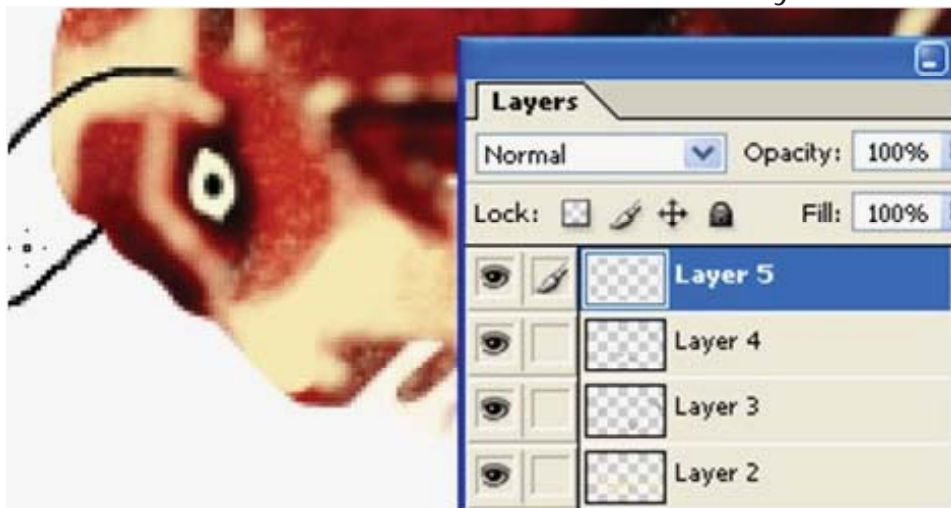

7. Now again select Brush Tool , and then select Brush # 3.

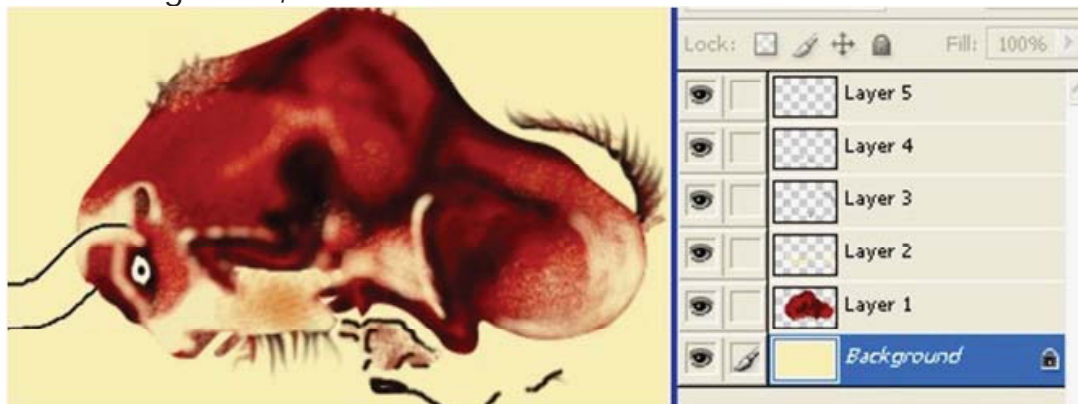

Now make Eyes with the Brush Tool and Brush color #FFD999. .

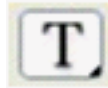

Here with the Brush Tool make a black dot to finish the Eye.

Select the background, and fill it with the color # F9EFB5. As shown below.

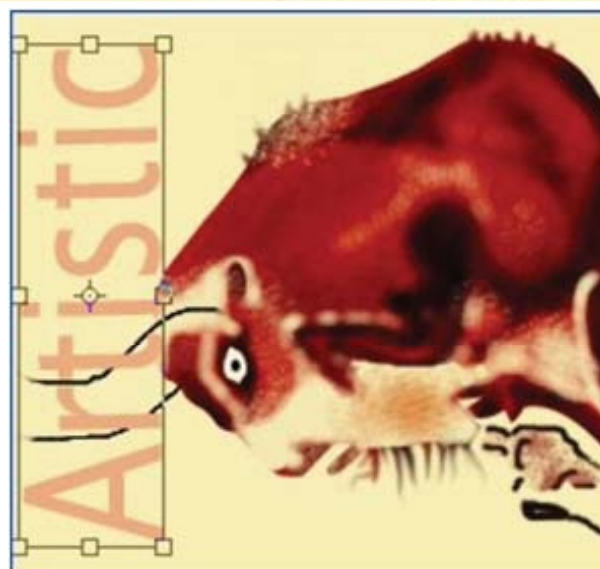

8. Next select the Horizontal Type Tool , and write the word "Artistic" with the color code #EBAB7F. (don't type the quotation marks)

Now press Ctrl+T, and with the help of mouse rotate the word Artistic and put it in the left side.

Now with the Horizontal Type Tool:

write Internet Services with the color #EBAB7F.

9. Final Image.
